

# BCW/MOK WAGYU CARCASS GRID

With the goal of creating a fair and efficient marketplace to help Wagyu beef companies manage supply and demand, Booth Creek Wagyu (BCW) has created the first ever US Wagyu carcass grid that establishes buying and selling prices of Wagyu beef based on Digital Marbling Percentage (DMP), the primary driver of Wagyu beef quality.

When you have demand for product that exceeds your immediate supply, let us know and we put you on the list for next available carcasses. These carcasses are also purchased based on the **Hot Carcass Weight (HCWT) \$ Per Lb pricing** using the our "Buyers Grid," and then processed to your specifications by MOK.
